Join us for *MODERATOR TRAINING*...

Learn a different kind of talk.... January 27, 2006

Brought to you by the Maricopa Community Colleges' Center for Civic Participation, this moderator training uses the National Issues Forums (NIF) model. NIF focuses on convening public forums for the consideration of public policy issues. These forums provide:

- an opportunity for citizens to join together to deliberate, to make choices with others about ways to approach difficult issues and to work toward creating reasoned public judgment
- an opportunity for people of diverse views and experiences to seek a shared understanding of the problem
- an opportunity for people to get past heated debate about difficult issues and instead, consider the issue from multiple angles and find ***common ground for action***
